By H. A. Gale, Deputy Clerk.

It is with a great deal of pleasure we call the attention of our members to the fact that not one judge of either court dissented.

Thus the now infamous Geib case is at an end for the reason that there is no other court in the land that has jurisdiction in the premises, if there was the Seceders would appeal to it, not with any hope of having the court decisions reversed but for to gain more delay.

Delay! Delay!! Delay!!! that has been their chief reason for appealing, they knew they were wrong and had no just grounds to stand on, and never had the least thought of winning in the courts.

They believed they could accomplish their selfish ends through delay, that is why they started the law suit in a court between three and four years behind in its docket they felt sure they would have the Brotherhood disrupted before the case was tried through their scurrilous, untruthful and filthy campaigning. Honest men's characters were assassinated by them, no one that disagreed with them was spared, they lied, and lied, and lied day in and day out, when we nailed one lie to the cross they invented another, many members believed them basing their belief on the theory that men would not stoop so low as to entangle the Brotherhood in litigation unless they had some honest motive for doing so.

Those members who arrived at conclusions quickly and went over to the opposition soon found out the truth and the mistake they made, and were sorry for leaving the fold.

That some of them were slow in coming back was due to the fact that they did not want to publicly admit they were wrong which they felt they would be doing if they came back immediately after learning the

truth, others who knew we were right were voted over to the other side and kept these against their will and desire through being in the minority, however, they are coming back home in goodly numbers every day sader but wiser trade unionists.

Our victory is a decisive one. No one can honestly raise the point that the Seceders' cause was not put before the courts properly for it took six weeks for Judge Phillips to hear the case the most of that time being consumed by the attorneys for the Seceders, the merits and demerits of the case was most thoroughly reviewed by the Court of Appeals which considered the decision of Judge Phillips.

The three judges comprising that court were unanimous in their conclusions, if Judge Phillips had erred it was a sure bet that at least one of those judges would have dissented.

After the Court of Appeals got through with the case those self-styled Brotherhood emancipators brought the case to the Supreme Court.

This court is comprised of seven judges and we find that not one judge among them dissented.

Can any one say truthfully that they have still a doubt in their mind, as to which side was right.

After three courts consisting of eleven judges have passed upon the case and not one of them held the Seceders were right.

We hope we will not be required to deny any more of their falsehoods regarding the court's decision, they had their day in court, we had ours we were right, that is why we won, we could now start some legal proceedings that would make some of those self-styled leaders step some but we have no desire for revenge, that is not in our make-up, what we want now is peace, a bigger and a better organization, so that the interests of the electrical workers of the United States and Canada can be better protected.

If those who were made to suffer by the untruthful attacks of those character assassins and disrupters are willing to forget, and lend our assistance to make the path of our Brotherhood a smoother one in the future than it was in the past, then every one should be willing to forget and all join forces for the purpose of co-operating with each other in making up the ground we lost during the past five years.

Let us all work sincerely in the interest of the Brotherhood for the next two years and we will make up for the lost time.

We want all electrical workers with us in one great big Brotherhood we want every members to help to bring this about this assistance we are sure we will receive with of course the exception of a few of the leaders who may want to hold out for personal reasons.

All should remember what the American Federation of Labor said at the Atlanta convention, one organization for one trade or calling. The aim of our Brotherhood should be one Brotherhood for all electrical workers.

It has been a costly fight, but it will prove the best thing that ever happened to us, for we have established the right of our constitution to govern our members, we also established the fact that when a member or set of members decide to leave the Brotherhood, they surrender all rights in the property of the organizations and forfeit all benefits therein.

The decision is the most important one to Organized Labor that has been handed down by a Court of Law during the past two decades.

We are glad it is over and proud of the old battleship Brotherhood which stood up against the broad sides of the secessionists successfully and came out of the battle in fine shape, satisfied to rest on the laurels, it

won and mighty tired of fighting but ready to start right at it again should any more disrupters make their appearance.

PROTECT YOUR JURISDICTION.

The question of protecting the jurisdiction of our Brotherhood against those that are trying to steal our work from us is an important one and one that should demand the attention of every Local Union and member thereof. If there ever was a just cause for a Local Union to fight for this is one. As we grow older we find new fields opening up for us every day, and also find other Organizations invading those fields and stealing from under our very eyes work that they have no right to do.

Who is to blame for this? you may ask, and the answer is, the Local Unions and members of our Brotherhood. It makes no difference how small the work may be, it is not too small for us to do, and hold to do, and thereby prevent those not entitled to it from doing it for us.

We find several Organizations that seem to have concentrated their forces and centralized their efforts against our Organization, and at every opportunity that presents itself they are taking our members' places. The question of jurisdiction of work is one that has raised a great deal of disturbance from one end of our country to the other, and every Organization seems to be ready to strike if necessary to protect its jurisdiction with the exception of the Electrical Workers, who seem satisfied to go along and work side by side with the members of other Organizations doing electrical work. Our Organization has as much right to go out and claim work of their trades as the other trades have to claim the work that belongs to us. But we are not trade pirates, and are satisfied to do our own work and let the other fellow do his.

The time has arrived when we must say to the fellow that is infringing upon our rights, "You must keep your hands off, and that means if you don't we are going to make you do it." The Electrical Worker is just as much of a factor in the construction of the modern building as any other mechanic. His power is just as great as that of any other Organization, and his means for raising funds for defense purposes are just as great as those of any other Organization.

The only trouble has been in the past that we have hesitated to get out and fight, believing that the road of least resistance was the proper one for us to follow. It is a long lane that has not got a turn, and we have at last reached the turning point, and all of our Local Unions must get out and fight for their rights, no matter who their opponents may be.

This is one of the two things left for us to do, the other being to sit idly by and allow the trades that are trying to take our work away from us to go on and not resist them, and when they get through perhaps some of them may allow us to transfer our membership to theirs, or at least admit us if we pay them their initiation fee.

Our I. E. B. has discussed this question very thoroughly. It has gone squarely on record that we will resist by every means within our power any effort on the part of any other trade to infringe upon our jurisdiction of work, and we intend to give battle to all Organizations that are at present doing the work that comes under our jurisdiction.

THE TENTATIVE AGREEMENT.

We are in receipt of information from the Pacific District Council that the referendum vote on the adoption of the tentative agreement which was entered into in December in San Francisco and signed by President Samuel Gompers and Vice President Joseph Valentine, of the American Federation of Labor, carried by an overwhelming majority within the confines of

that council. This we are pleased to hear, as it demonstrates the desire on the part of the Electrical Workers on the Pacific Coast to join with us in order that we can concentrate our forces and centralize our efforts on our common enemy. The council is now taking a referendum vote as to whether they will pay their February per capita tax to the Brotherhood. If this carries it will mean that all the Locals within the Pacific District Council will become affiliated with us before the last day of March.

The officers of the Seceders refused to submit the agreement to the referendum vote of all its members, and an appeal was taken from their action. This appeal was submitted to their referendum vote, and their General Officers and Executive Board were sustained despite the overwhelming vote in favor of the agreement on the Pacific Coast.

We are done fighting with the Seceding Organization and we are not going to enter into any controversy with them over their actions. All we desire to say is that we made the agreement in good faith. We have done our part and have adopted it. We are sincerely sorry that their membership as a whole did not approve of it, and glad that the officers of the Pacific District Council have done their duty in the premises. We hazard the opinion that before six months has passed that the members outside of the Pacific District Council who voted against it will be sorry that they did so.

This whole question in detail, from the beginning to the end, will be published in the April issue of our Worker.

A NEW LITERARY GENIUS.

Just as we were about to believe that the campaign of dirt and slander that was started by the leaders of the Secession Movement in 1908 was at an end, there arose before our eyes a new Moses that is going to lead the Electrical Workers out of the wilderness. This new Moses edits what he is pleased to term "The Critical Electrical Worker," which is published and printed at Los Angeles, Cal. He also signs himself as the Press Secretary of Local Union No. 61. It is unnecessary for us to say that he is affiliated with the Seceding Organization. Of all the foolish ravings we have ever read, Doran's takes the prize. He advocates Industrial Unionism and sabotage which he justifies by a line of reasoning that would do credit to the chief philosopher of an insane asylum.

We don't believe that any one pays any serious attention to him or his ravings, and we merely mention it for the reason that we don't want any of our members to believe or imagine for a minute that he belongs to our Brotherhood. God forbid, at least until after he has gone through a course of medical treatments.

The I. E. B. has mapped out a plan to organize the Telephone Operators. A force of organizers will be placed to work shortly. If the Operators of your city want to organize, have them communicate with the International Office.

The fellows that sold their convention vouchers at a discount will feel sorry when they hear we have finally won the law suit, and all convention vouchers will be taken up as soon as the details are arranged. We always stated they were worth 100 cents on the dollar.

Leave nothing lay over for future consideration that can be acted upon immediately, to lay the matter over until next week is an old trick of the politicians, when they want more time to frame things up as they call it.

Don't try for to show the boss you know more about the business than he does. If you just do an honest day's work for him, he will be satisfied, and he will like you better for it.

Our I. E. board adopted the Tentative Agreement. We have done our part, and we feel sure the Pacific District Council officers and members will do theirs.

A member who has not paid the January death benefit assessment before April 1st, is violating the law, and is liable to lose his good standing.

We received sixty-two telegrams and letters from International and Local Unions, congratulating the Brotherhood on its victory in the Supreme Court of the State of Ohio.

Don't forget all Local Unions must collect from all members the subscription price for The Electrical Worker during the month of April.

We have a new stock of Local Union supplies on hand. If you will buy what your Local needs from the I. O., you will save money.

Forty-five thousand members in good standing is our aim for the St. Paul Convention.

Have you a new Constitution? They are ready for distribution.

Write to the I. O. for information about Local officers' bonds.

Are your Local Union officers bonded?

Does your trustees audit your books reguarly per the Constitution?

AN APPEAL TO REASON.

Does it not seem time for the thinking-men of this Brotherhood, and we are all still a Brotherhood, to figure out where are we drifting, and where are we going to get off?

For some years, the organized Electrical Workers have been disrupted, practically disorganized, and almost at the mercy of the employer. The electrical workers were only brought to their high standing in the labor movement by the most untiring efforts, personal sacrifices and undying devotions to the cause of Unionism.

In the days of the infancy of the International Brotherhood of Electrical Workers, honor, principle, and the "Dæmon" like friendship among the pioneer electrical workers were the greatest factors in creating the organization now split into two warring factions. Are the sacrifices of Henry Miller, J. T. Kelley, Tom Fennell, and other true and tried union men, who have suffered hardships untold for years, to create an organization, to become a plaything for certain men? God forbid the men of the rank and file to be guilty of such criminal carelessness to allow their very liveli-

hood to be placed in jeopardy. For years we grew steadily improving our conditions, creating new ones, becoming more powerful until the destroying spirit of secession crept in amongst us. Lust for power, petty jealousies, and personal ambitions among men caused a split that for a while threatened to destroy one of the best and strongest organizations in the Labor World. Now, why should we, the rank and file, the real body and brain of the International Brotherhood of Electrical Workers be sacrificed on the altar of other men's personal ambitions? Are we willing to be the "goats" for others, with an ax to grind, or not?

Unity is strength. It is life. It is the only resort of the weak and oppressed. Then why not unite and restore our Brotherhood to its former greatness and power—be once again one of the greatest labor organizations in the movement, and we must, for a "house divided against its self" must surely fall.

Let us now unite into one grand and glorious Brotherhood of the International Brotherhood of Electrical Workers and stand like the Rock of Gibraltar.

Correspondence

L. U. NO. 5, PITTSBURG, PA.

Pittsburg, Pa., the workshop of the world, is still on the map, at least No. 5 is still doing business at the old stand, with Brother Gordan handling the lines, and say, some of the bunch thinks he is not getting results, but I for one claim that he is the best ever. It seems a short time ago a few bone-heads got together and tried to inject religion in the Union. Now, I must refer back a little to the February Worker, in an editorial, and what it says about a man calling himself a trade unionist that injects religion into a trade union should be thrown out headforemost "nuff sed." I have been around to a few Locals; have met Bros. Hogan of No. 534, Shields of No. 134, (two princes), and always read Brother "Baldy's" letters in The Worker, and I certainly admire him, but it has never been my luck to meet him personally, and I must say that Brother Gordan is of the same class.

Well, the winter is nearly over, and things are going to be a little slow, as we are cleaning up some of the buildings, especially the Kauffman-Baer department store, a twelve-story building, the electrical work being installed by the L. K. Comstock Co., with Brother John Williams as foreman, and Brother Louis Enders of No. 534, as superintendent, and say, it was the cleanest in regards to union conditions that was ever pulled off in the Smoky City, but in the near future things will be booming, and if you come this way, the latch-string will be hanging out on the sixth floor of the McGeagh building, but if you do not have the green goods, it is no use to stop. Well, we have lately taken over the Fixture-Workers, and must say they are a fine bunch and always on the job at the meetings, and also must say they received a very fine increase in wages. Well, as this is my first attempt, I will close with my best regards to all sisters and brothers of the I. B. E. W.

I remain, Yours Fraternally,

Jas. H. Palmer,

Press Secretary.

L. U. NO. 9, CHICAGO, ILL.

Editor: I take great pleasure in being able, at this time, to furnish a few lines for The Worker in behalf of L. U. No. 9. Conditions in this vicinity are far from being the best, but in view of the fact,

that work is not booming any where in the States, according to a number of the Press Secretaries, we will not complain.

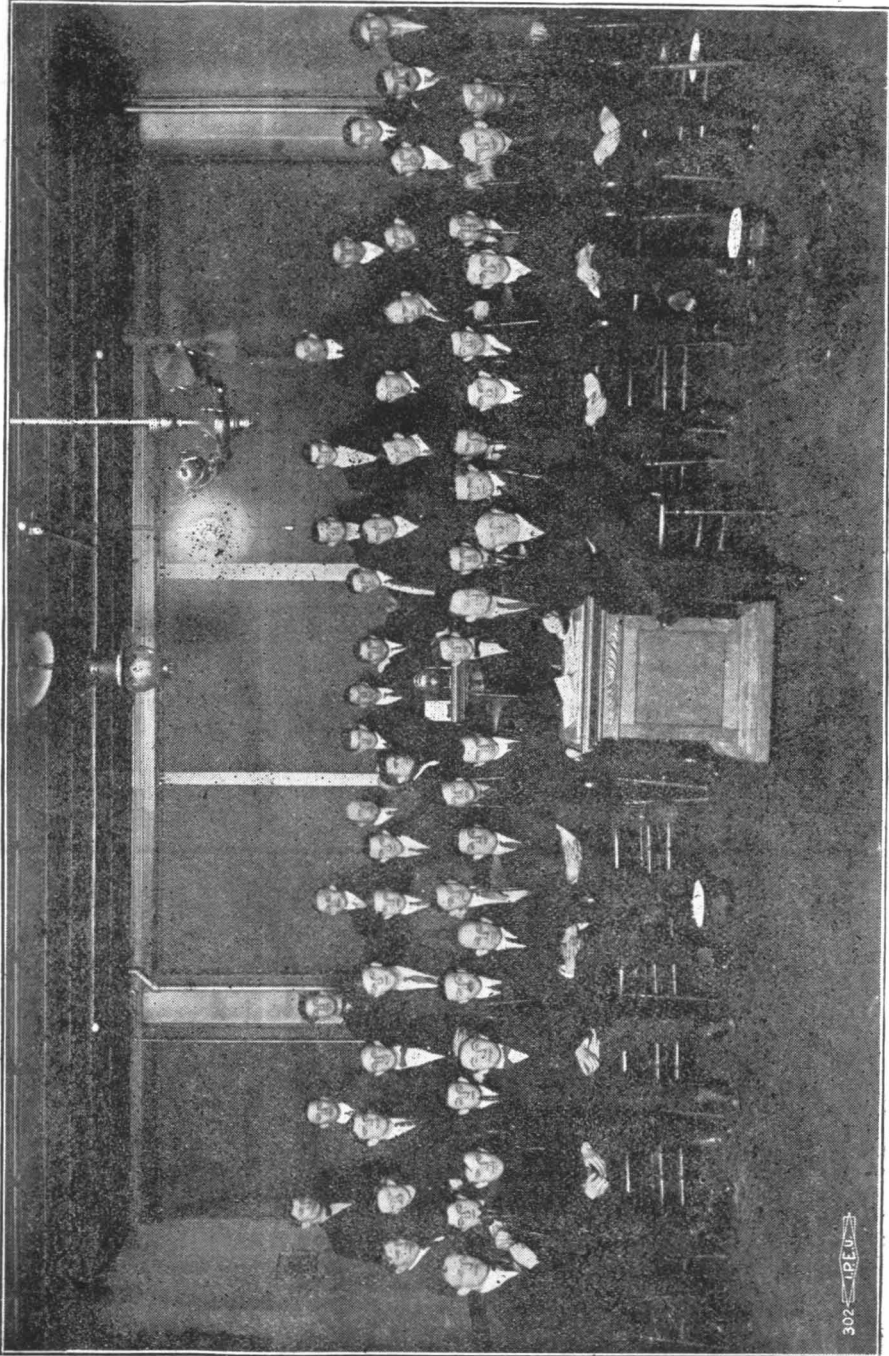

For a city the size of Chicago, the unemployed within the various Electrical crafts are considered small, as compared to other vocations. This, I believe, is due to the great number of individuals recorded in our ranks who work with the spirit and interest that will eventually, step by step, place our Brotherhood on the highest plane of perfection, relative to Labor Organizations. The problems encountered by the officials and representatives of a Local Union are more easily grappled with, and more times success is attained where this spirit prevails. With each and every one bending a shoulder to the wheel, the steady grind marches on, encouraged now and then by the realization of some task being finished, which acts on the workers as the fife and drum acts on the hearty soldier, drawing the summit of our ambition nearer.

The labor movement in our craft, is endowed with some of the richest marts found in the union of mankind. Their efforts to produce the amount of product agreed upon is remarkable; also the open and free-hearted way of viewing different subjects from all angles open for discussion, which is very essential, and leads to the creation of laws and regulations in our Brotherhood that is well worthy of protection.

Obstacles arise thick and fast, but without them life would not be worth while. With nothing to overcome, no efforts necessary, we would in time grow idle and lazy. To appreciate the success of our struggles, we must have obstacles to cause the struggle.

The entire Brotherhood, as a whole, can now enjoy their labors since the decision of the higher Court in Ohio, practically wiping out the Seceders and closing the last chapter in the Secession movement. The Seceders in Chicago have been unable to damage us to any extent, and I feel quite sure what there is of them will be back in the fold by March 31st.

I opened this letter for the purpose of writing on conditions pertaining directly on L. U. No. 9, but have been unable to fasten myself there thus far. We have been very busy, in fact, always busy, but, at a rough estimate, I would judge seven-

ty or eighty of the members are out of work just at present, but expectations are good within the near future. We have a local organizer here, whose efforts have been shown by the initiation of 125 new candidates in the past three months. Prospects of a busy Summer are good. Plans are being submitted and negotiations opened for a subway in Chicago, which, if such comes to pass, will benefit the cablemen to a great extent.

New agreements for the street railway jobs are being prepared and no trouble is expected in that direction.

Regardless of the new initiations mentioned No. 9 will be obliged to decrease some in membership, owing to the success of the Cable Splicers in obtaining a Charter of their own. The Splicers came to the conclusion that they could better themselves by traveling alone. We extended to them our best wishes and heartiest congratulations.

Fraternally yours,
A. M. Parish.

Editor:

Now first of all brothers do not drop dead from fright or heart failure at seeing a line in *The Worker* from old 17, for we have such a good attendance on meeting nights that we don't want any deaths among our members. The only members of which do not swell the attendance at meetings are those of whom live out of the city or are sick or are angry and don't want to or some who don't know where we meet, so you see a good excuse for all who are not present. Then some brothers work nights. Some of the married brothers do not like to leave their wives alone during these hard times, and the single men well some or them are just looking for hard times, so you see we have good sleighing up here.

Now work has been very slack all winter, and is at this time, but hope to see things open up in the spring, but if you think of coming this way a paid-up card is a good thing to bring with you, for easy street may be out of sight unless you have the card or willing to get same immediately after you land.

I see by *Worker* some press secretary mention the Reid faction now that is a thing most unknown up here. Just keep organizing and in a short time we will be in elegant shape again, and the boys of said Reid faction will see their mistake and join the real Brotherhood.

Wishing the brothers unlimited success, I beg to remain,

Yours truly,
C. E. Miller,
Press Secretary.

L. U. NO. 38, CLEVELAND, OHIO.

Editor *Electrical Worker*:

This has been the worst winter since 1907 for Local No. 38, as regards work. We have this town well organized; in fact, better than we ever have had. This is largely due to our progressive business agent, Brother Hart.

Brother Hart is at Springfield, Ill., this week, attending meeting of International Executive Board.

We have made an extensive study of our conditions here, and of our Local, and could see that unless we improved some day we would have to come face to face with the question of classification of men. To side-step this, to improve and elevate our Local to a higher standard, we established a school.

Meetings are held once a week. At each meeting each member of the class is given a copy of the lesson for the next week. He writes out his answers and draws sketches where they are required, turns them in for correction. They are corrected by committees, returned with per centage marked and a record kept of each one by card index system.

At each meeting the questions are taken up one by one and explained on blackboard or by the aid of the stereopticon machine with slides. Sketches, wiring diagrams and electrical apparatus of all kinds, are reproduced on a screen eight by eight feet, traced, explained and lectured on.

This school was started last September, and we find that by class formation we can get some wonderful results.

We wish the rank and file of the I. B. E. W. could see the papers and sketches turned in by this class. We think it would do your hearts good and feel we have found the solution to the question of the classification of men.

This school work is carried on by a committee of five earnest workers who are doing their little mite toward the uplift of their fellow man. It is a grand good work and we hope every Local in the I. B. E. W. will establish a like school, because it means a better class of men and a better Local. Should any of the sister Locals wish to establish a like school, we will give you the benefit of our experience and assist you all we can in getting you started on the climb to a higher and nobler brotherhood.

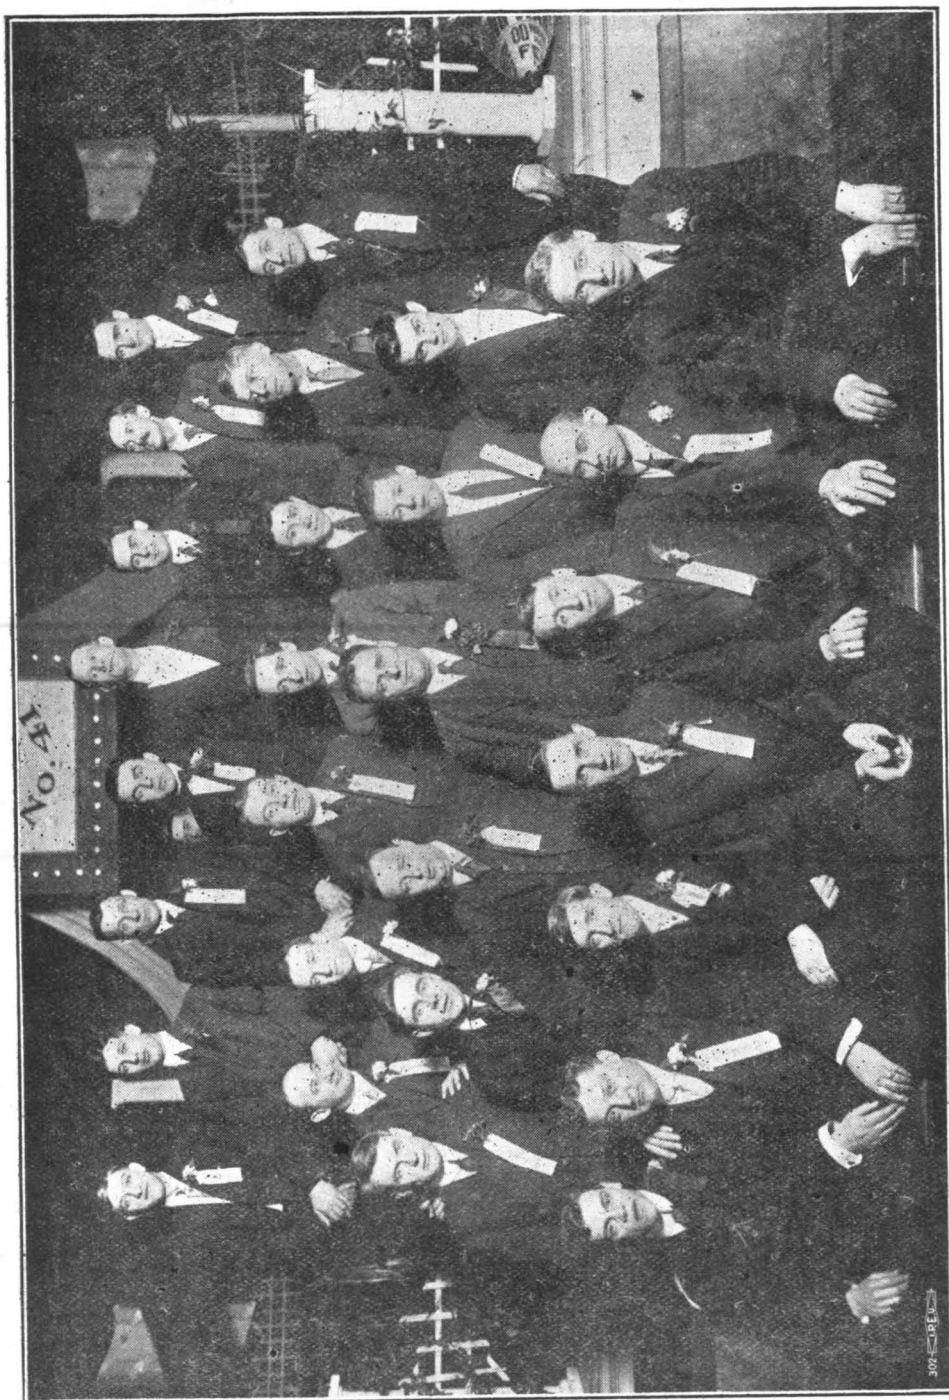

Fraternally,

W. H. Downs, Jr.,
Press Secretary.

L. U. NO. 41, BUFFALO, N. Y.

It has been a long time since Local No. 41 had a letter in *The Worker*.

The year 1913 was a banner year for the electrical workers of Buffalo, but our agreement with the contractors, which

Entertainment Committee of L. U. No. 41, Buffalo, N. Y.

gave us a wage scale of \$3.60 per day, expired January 1, 1914.

At its expiration a demand was made for \$4 per day. The following committee, R. Alger, A. Simons, G. C. King, L. Mills and A. J. Woods, were elected to meet the contractors and arbitrate the demands which they did with credit to themselves and the Local.

The contractors were obstinate from the start, and after six weeks' efforts a special meeting was called, and the Local demanded a raise to \$4 with the agreement to end May 1st, 1915. This was refused, and some of the contractors started to employ non-union labor.

The Local immediately called another special meeting, which was held on February 20, and after listening to an address by President McNulty on the subject as he saw it from all angles, and cautioning the members as to the trade conditions in Buffalo, which are certainly not the best, the members, after heated discussion, that lasted until nearly four o'clock in the morning, and during which time about six ballots were taken on the proposition made to Local No. 41. When the early morning hours began passing away it was decided to allow only the journeymen to vote. Their ballots decided the question, and the following terms of payment were accepted: A raise to \$3.75 per day, from February 15 to January 1, 1915; \$4.00 per day in 1915; \$4.50 per day in 1916, and in 1917 and thereafter, \$5.00 per day, and closed shop conditions.

With the above, the Union will have an agreement that is agreeable to both sides, as there was only the wage scale in dispute. This gives Buffalo a closed shop for four years to come.

Work is very quiet at present, as we have a number of men not working, and, due to trouble, no cards are accepted. The outlook for the future is bright and no doubt as soon as all local men are working, an effort will be made to take care of traveling brothers.

The Seventeenth Annual Ball of the Electrical Workers of Local 41 was held in Elmwood Music hall Wednesday evening, February 4 and was by far the most brilliant of any given under its auspices. The attendance was the largest in our history about 1,500 participating, and an enjoyable time was held by every one present.

Every detail, from music to decorations, had been seen to with infinite pains by the committee.

The floor committee met all visitors from other organizations, making them feel right at home, and merry making was continuous from eight in the evening until an early hour in the morning.

The committee to whom the success of the dance was due consisted of W. Fisher, chairman; M. J. Barry, Secretary; E. G. Westly, Treasurer; A. Edelman, J. Hunter, J. Butler, W. Flett, K. C. Besant, J. A. Vogt and F. Klingelhofer. They were well assisted by the floor committee of twenty loyal members, headed by A. Simons.

E. W. Brown,
Press Secretary.

L. U. NO. 48, PORTLAND, ORE.

Editor:

Since last writing you we of Local No. 48 have passed into oblivion, in a literal sense and have been resurrected under the number of Local No. 48, which includes members of Reid Local No. 317 also, and we are altogether all the time for conditions for the electrical workers and for the betterment and welfare of our Brotherhood.

As all familiar with the situation here were aware we have had a hard battle with a foe worthy of our steel, and now after all is over we are a solid body of inside men, the majority of whom are sure fighters for what they think is just and right.

Now as to the outlook here in the city things have been rather slow but we expect great things here this summer as work seems to be picking up and we will be in a position to consistently maintain conditions and expect by this time next year to be the envy of the Brotherhood as far as conditions and wages are concerned.

At the last writing I said we hoped the word secession would be stricken from the dictionary, and we feel that as far as we are concerned in Portland this has been accomplished. Would like to hear from some of the Brothers, where City or State compels the electricians to take examination and procure licenses and what the results are.

Fraternally yours,

W. H. Emrick,
Business Agent Electrical Workers
No. 48.

L. U. NO. 56, ERIE, PA.

Editor: Just a few lines to inform you that Local No. 56 is still on the job. The local handful of Secessionists were on the job also, until the last few weeks. Their chief working tools being the usual line of slander and childish delusions. If one is to judge from appearances the Secessionists are going to seed.

At the last municipal election two Trade Unionists and one favorable to the workers were elected city commissioners, out of four. It is the desire of the line-men to have some progressive, protective

municipal laws enacted; and we ask the various Locals, where they have legal protection, to forward printed copies of the same.

The Local is in fairly prosperous condition, both financially and as regard to working conditions, we do not intend to drift but are going to try and regain the prestige this Local once enjoyed.

Work will not be over-plentiful here this Spring, as the strike of the metal trades have put a crimp on the business enterprises.

Fraternally,
Harry Simpson,
Secretary.

L. U. NO. 61, LOS ANGELES, CAL.

Editor:

It was sure a blessing for a good many of the boys here that we had a "real flood" in Southern California, from the 18th or 20th of last month. The storm was the heaviest in many years, all railroads were out of service for one week making only temporary repairs. Telephone, telegraph and power lines were down and this made a great deal of work for some of our unemployed. Most all the outside men are at work now, working on new lines and repairing old tower lines. Indications are that all will be working again soon. We are having hot weather here now. Brothers, we expect big crops this year and we need it, as the oranges were a total loss last year. As to rain, we get from 6 to 12 inches with an average of 14 inches each season; this season we have received over 19 inches so far, so don't get too enthusiastic and come to Southern California right away and expect to find big things. We want you and extend a standing invitation, but bear in mind to have plenty of corn to tide you over for a while, and if possible, a job, before you come.

Local No. 61 has held some interesting meetings of late; at a recent meeting much discussion was brought about in the interest of the members. It is true the inside men are poorly organized in this town. We have practically no closed shops. Last June we declared to set the scale at \$4.00, most of the boys had been getting \$3.50 per day. We expected to get the \$4.00 quietly and have succeeded to a certain extent. So far the County and city and a few of the contractors are paying the scale. It is a hard fight to get anything for organized labor in Los Angeles. It was brought out in the discussion that co-operation of all the members with the fair contractors and other members of the labor movement would no doubt help us to maintain the \$4.00 scale and organized the electrical workers.

The Building Trades Council received over 1,000 new members last year and gained the highest percentage, 80 percent, in organizing and leading all other councils in this State. Much is to be done yet and this plan of co-operation of all organizations in demanding the working card, union-made goods and patronize only fair houses, is the only way Los Angeles will ever be organized. Since this agitation in a mild way in the last month, I can see results. Brothers, what concerns one organized worker must concern the other, let us cut out our jurisdictional fights and petty quarrels with each other, stand for united action and store up our potential energy to fight the organized bosses on the industrial field.

Brother Scott had his share of trouble last month, many of the members of his family were sick. All are on the road to recovery now. Harry has a two weeks' leave of absence this month, having been appointed by the State Industrial Accident Board to do some work. We wish him success and hope it will be permanent. This is in the interest of the new Workman's Compensation Act.

There is nothing definite about the P. D. Council coming into the fold and the R.-M. General Officers are doing, all in their power to prevent it. We still have hopes.

Fraternally,
A. E. Danielson,
Press Secretary.

L. U. NO. 66, HOUSTON, TEX.

Editor:

Just a few lines to let the Brother know that we are in the land of living and increasing our membership most every meeting, two applications acted on last meeting with bright prospects in the near future for more, also had with us last meeting night our general Vice President, Brother James P. Noonan, whom made us a very interesting talk, and one that will be long remembered by all of the members that heard him, and we were glad indeed to have him with us. I hope he will remain with us some time and hope to see more of our General Officers in this neck of the Pines, and as Brother Noonan stated he had just gotten out of very bad snowstorm and on landing here finding plenty of ripe strawberries that it would not be a very hard job for us to hold him here for a while.

As I were looking over the last issue of The Worker, I find some very interesting letters and wonder why we haven't more than we do with so many Locals and such a few letters in The Worker. I would suggest to every Local that has a Press Secretary and no letter in The Worker to get right in behind that said

Press Secretary, and if he don't write, get one that will, and see if every Local in the United States and Canada can't get a letter in The Worker ust once any way. I know our Editor won't be angry with any of you about it. It might worry him a bit by taking him so by surprise, but I will vouch for you not losing his friendship, so let us all try next month to see the percentage we will have over the last in letters from our Press Secretary.

C. A. Boatman,
Press Secretary Local No. 66.

L. U. NO. 136, BIRMINGHAM, ALA.

Editor: As No. 136 has been silent so long, I will promise to be very mild with my first attempt to get before the entire Brotherhood.

Will say to those coming this way: 'You will save time and money by going to some other place, unless you wish to come by and cheer us up, on your way.' We have several Brothers leaving town and several others loafing and will have more soon.

Brothers, Birmingham is a back number at present and I look for conditions to be bad here for a long time. We have had five strikes among the scabs of different crafts since last May, when Union men went on jobs built by those scabs. One thing I want printed in The Worker is, that F. W. Woolworth is having a building erected by non-union men here. I would be pleased to have the matter taken up by every Brother, wherever Woolworth stores are located, and see if we can induce him to change his tactics here.

Wishing the Brotherhood a successful year in both moral and financial conditions, and, one thing I do hope to see in the near future is one United Brotherhood of Electrical Workers, and this thing of two factions be a thing of the past. I am frank to say that there are just as good Union men in the Reid faction as there is in the McNulty faction, and, with the proper appeal they can be shown that we are right, and stop the fight.

The rank and file are the ones who suffer, as we all know when a Brother has to hit the road he meets with all kinds of troubles and the most of these troubles would never occur with Unity in the entire I. B. E. W., and if every Brother would do his part we would easily arrive at an early settlement of this uncalled for internal strife of more than four years' standing, and then we could put all of our energy into fighting the foes of the poor Laboring Man.

I will pull the switch for a while. With

best wishes to the entire Brotherhood,
I am

Faternally,

A. J. Tamiton,
Business Agent.

L. U. NO. 177, JACKSONVILLE, FLA.

Editor: As it has been a long time since I saw any report of Local 177 in The Worker, and our Press Secretary is away a good part of the time, I take it upon myself to send you a few lines for publication. At present work here is not very brisk, and, as we have a great many snowbirds here who are willing to work for small wages for the Winter, I notice a great many men who are carrying good cards around, making short time each week, but I can assure you that Local No. 177 is working hard in conjunction with the Central Trades and Labor Council to bring about better conditions in this city in the near future. We have, with the Trades Council, got a live man out as Business Agent, and all Locals are working to get an Organizer in our field in the near future, and we are living in hopes that we will be favored with one to help along the good work and, if possible, we want to get things in condition by next Fall so that when the cold footed ones drop around, it will be necessary that they either show a good card or secure one in order to get a job for the Winter.

Trusting this meets with favor and is accepted, I beg to remain,

Faternally yours,

M. F. Foster,
Recording Secretary.

L. U. NO. 184, GALESBURG, ILL.

Editor:

As I was appointed Press Secretary about the first of the year I will try and get a few lines in The Worker now and then, I will admit that I have been negligent about writing for The Worker, but will try and do better. L. U. No. 184 is still on the face of the globe although we have not been making much noise, we have had competition since about the first of last September, a Reid-Murphy Local being huddled together here and are trying hard to make a go of it.

The Railway & Light Company along about the middle of the summer began to build transmission lines to two nearby towns and therefore needed lineman as we could not furnish any they had to take what they could get and they were mostly Reid floaters that come this way they finally had enough that they decided they would have a Local Union well they took in everything they could rope in and called them lineman. Well they

managed to get about fifteen or twenty and about 4/5 of them being floaters they were getting \$2.75 for nine hours' work. Things went smoothy for about three months when the President of their Local Union lost his job and then he jig was up. Then they stood for a cut from \$2.75 to \$2.50 without objection how's that for Unionism. Now we hear that their Secretary and Treasurer and President have left with the funds. I think we will get what few members they have left.

We have our quarterly social Monday evening, February 19th, and all present enjoyed themselves to the utmost we had a 95 percent meeting and have had for sometime prospects looks bright for us although it is dull at present. We have had a finger in organizing a Building Trades Council here and feel as though it is the best thing we have done for a long time we have already felt the effect of it as we are taking in new member's each meeting.

Brothers, work is very dull here at present so if you must travel please don't come this way as we can not do anything for you.

Fraternally,

Earl Hoskin,
Press Secretary.

L. U. NO. 335, SPRINGFIELD, MO.

Editor:

Will write you a few lines to let you know No. 335 is still in existence and that conditions has been good up until the last month. One of our fair contractors had a big job with the Springfield Furniture Company and employed three journeymen and one apprentice for about four months and we showed them that Union men could make them money instead of loose it for them and today they are opening up one of the largest fixture and supply houses on one of the most prominent streets in our city. We have two fair contractors out of five doing business in this city the two fair contract shops being the leading ones helps us boys considerable one of our fair shop being in North Springfield and also handling a large line of fixtures and supplies. We have the ground fairly well covered with those two firms while our Light and Power Company of this city has not signed our contract yet. They are fair to us as they keep our outside boys steady the year around.

With best wishes, I am,

Yours fraternally,

O. E. Jennings,
Press Secretary.

L. U. NO. 419, NEW YORK.

Editor: I am glad to be able to tell the Brotherhood, through The Worker, that we have made some progress recently in the matter of wages, having been granted an increase in our scale, which went into effect January 1st, 1914, but, I am sorry to state, has not proved to be a matter of unmixed joy, because trade is so bad here it has more than offset the gain; the depression seems to be general in all lines and, to make the matter worse, there does not seem to be any relief in sight as yet, and I feel it my duty to warn any Brother who may be thinking of coming here to look for work not to do so because his chances of finding it would be very slim, indeed; we are keeping up our courage, however, and hoping for better times, for we realize that the present stagnation is purely political, being caused by national legislation already enacted and more underway, which naturally keeps the business world guessing until they know what they are up against for a certainty, when, there is no doubt, business will adjust itself to conditions as it finds them; and then things will boom again.

Hoping this will reach you in time for the March Worker, I am

Yours fraternally,

J. W. Smith,
Press Secretary.

L. U. NO. 591, STOCKTON, CAL.

Editor: At a recent meeting of Local No. 591, of this city, I was elected Press Secretary and was instructed to write the G. O. for publication in The Worker, of the conditions on the coast, and, particularly of California.

As you are well aware, the Fair, which is to open in 1915, is advertised the world over and particularly in the United States, and that California is painted in glowing terms in regards to the climate and the opportunities for the working man. Electricians and other mechanics are flooding this country in reply to advertisements and when they get here they find that there are more men here now than are needed to do the work. This winter in California and, in fact, the Pacific coast, has been the worst for the working man of any other year, to my knowledge. Nearly all the large cities have been compelled to make work for the needy men, as lots of people were actually starving.

So many electricians have been coming this way that all kinds of schemes have been figured out to keep them from landing in a town, and by so doing, protect the men already located. No. 6, of San Francisco, some time ago, suggested

to have all the other Locals in the State enter into an agreement, whereby they would issue permits, (revokable when local men were out of work), to Brothers from other Locals on arriving in the jurisdiction of any of the Locals in this State, and the said Brothers were to keep their cards and dues paid up in their home Locals. This idea was not carried out.

At the present time all, that is to the best of my knowledge, Locals in this State give a traveling Brother a stiff examination, unless he has a written record from the General Offices, with his five years continuous standing.

There was a draft of a proposed ordinance submitted to the city council last night. It was supposed to be drafted by the City Electrical Inspector, but a representative of the Contractors' Association state before the council that they drew it up. There was a clause placing a \$150.00 license provision in it.

The Building Trades opposed the license as a unit, but the City Electrical Inspector circulated a petition and about thirty-five Electrical Workers, out of about a membership of forty-seven, signed the petition in favor of the license.

To the boys of the trade, I would state, for myself, and numerous other members in this country, that you are as welcome as the flowers in Spring, but for God's sake, bring money enough to go back on in case you don't land.

Fraternally,

A. H. Scherrer,
Press Secretary.

L. U. NO. 679, PHILADELPHIA, PA.

Editor:

Just a few lines to let our fellow workers and brothers know that Local No. 679 (Fixture Hangers) are still in existence and on the fighting line as usual. We are just getting into shape again after recovering from the after-effects of a lost fight in our line of the trade here some few years ago. The tardy brothers are coming back into line again very slow but sure and we have great hopes for the future.

Visiting brothers from out of town will find a hearty welcome and the hand of good fellowship always extended to them. So when you strike Philly, boys don't forget Local No. 679.

Fraternally yours,

Wm. Reber,
Philadelphia, Pa.

L. U. NO. 697, GARY, IND.

Editor: Having had this office wished on me for a year, I will have to try and write a little letter so that I will not get

the hook. Now Brothers, I have just finished the Yellow Journal that is edited by the original Referendum Guy, Mr. Kimball, and I have read his explanation as to why Fitzgerald was selected as their Official Salve Spreader and Meal Ticket Getter, and I think it is the worst I ever read. He has absolutely no excuse for doing it. In the first place, why is it that J. J. Reed was elected to the office at their Denver Convention, when they knew that it would be impossible for him to serve in the office as he did not finish the last term. But if they had done that the election might not have gone so nice. Anyway, Fitzgerald is the man, so they say, and he was elected by the majority (of the Board).

Now Brothers, how long is Organized Labor of this great United States and Canada going to let a bunch of meal ticket grabbers like these men last? They are a menace to all Organized Labor, and the sooner that their rank and file wakes up, the better off we will all be. There are a lot of men that belong to that Meal Ticket Club that do not know why there is a split in the Electrical Workers, but if they knew how it came about they would sit up and take notice. Some of you brothers that know about this should take it upon yourselves to see that they are told the truth about it and just that much sooner we will have a United Brotherhood. If every man that is in the Brotherhood now would say, "I am going to get one of them to see where he is wrong," and keep at it until he had won, we would soon be back where we belong—at the head of the list in Trades Organizations. Let every Brother see what he can do to bring home the bacon this year.

Now Brothers, to go on with my story and plead with you to do all in your power to bring the Electrical Trades all under one head, where it belongs, then we will have money to fight the large corporations with. Let me say right here, that I know whereof I speak, as I had up before the city council an ordinance to license contractors, so that I might put the porch climber out of business, but the councilmen that work in the steel mills killed it for me because the Steel Company said so. The Steel Company owns the Electric Gas and Water works and they don't want anybody to inspect any of their lines or underground work.

If the Brothers, over the country, that have got a license, and city inspector will send me a copy of them I may be able to get something that will help me some in my fight with this company. I am not going to take up much more of the space in The Worker only to say that Wm. Wedlock, a dirty strike breaker, formerly of No. 18, Deroit, Mich., is back in

town at his old trade of scabbing in one of the scab shops here, but don't think he will last long, as a Building Trades Card is going into effect the first of April, then He will not last very long.

Wishing everybody a prosperous 1914,
I am

Fraternally yours,
Arthur McGraner,
Press Secretary.

Reports of Officers ... and Organizers ...

To the Officers and Members, Greeting:

I appeared before the Credential Committee of the Utica Central Labor Union, on the question of seating our Local Union No. 724, of Picture Operators. The committee of our Local, as well as a committee from I. A. T. S. E., were present. They had a telegram from their International Officers, requesting the C. L. U. committee to lay the matter over until they had a chance to take the same before the A. F. of L. for a decision. I objected to the same on the grounds that the matter was laid over for two weeks, and all parties notified that the committee would render a decision regardless of who was absent. After the hearing the committee reported to the Central Body favorably on the seating of our delegates; that means that this question of jurisdiction over Picture Operators will now certainly be put before the A. F. of L.

I attended a meeting of Local Union 181, of Utica, and am pleased to say that the few members who had stayed out with the Reid organization, have now come into the fold, thereby eliminating friction in that city for Inside men. They are now working on a new agreement to present to the contractors.

I went to Hartford, Conn., on Local Union No. 35, lockout, and the boys are putting up a good fight against the Manufacturers' Association's open shop policy. I attended one of their meetings and they all seemed in good spirits but are in dire need of finances. I have endorsed a circular appeal, which is now being sent to all Locals, and I hope that all that possibly can will contribute a little towards this fight.

I left for Lynn, Mass., and attended a meeting of Sub-Local No. 377, of Telephone Operators; they are now progressing very nicely.

Attended meeting of Local No. 104, of linemen of Boston. I am pleased to report they are doing very efficient organizing work in their line, in this vicinity.

I attended meeting of Local No. 103, the inside men of Boston, who are now

working on a new agreement with their employers; they contributed to the "Boom Boston Fund" at this meeting, the purpose of which is to make Boston and vicinity a large industrial center.

Attended the meeting of Local No. 142, the telephone men of Boston, and am pleased to report that they are advancing so fast in organization that it will be only a short time when they will have one hundred per cent organization working for the telephone company. It is very gratifying to see the good work that is being done by such a young organization.

Next I attended meeting of Local Union No. 1 A., of telephone operators of Boston and I am very pleased to report that they are now running along in a very harmonious, as well as prosperous condition. They are adjusting all their differences with the company and have adopted a new set of By-Laws.

On complaint of Local Union No. 503, on the jurisdiction question between them and Local No. 103, I arranged for a meeting of the Executive Boards of both Local Unions, and after going over the questions involved, it was agreed by both sides, to recommend to their respective Locals that a committee of five be appointed to draw up a working agreement.

I have submitted to the Locals of the Reid organization in this district, the proposition for re-affiliation.

Most of these Locals, I have either been in communication with or appeared before them several times since I have been in office, but have not, up to the present time, succeeded in having them re-affiliate. I am in hopes that in my next report that I will be able to say that they have all re-affiliated.

Attended meeting of Local No. 717, of shopmen of Boston, and they are now prospering nicely since their recent strike.

Attended meeting of Local No. 396 of cable splicers of Boston, who are now trying to negotiate agreements with several of their companies. They have just had one of their members reinstated with the Edison Company, who, it seems,

had been dismissed on account of his activities in the organization.

The Electrical contractors of the State of Massachusetts have introduced a bill before the State Legislature for the licensing of Master Contractors and were present in large numbers from all over the State at the joint hearing before the committees of the Representatives and Senators. I appeared against the bill, in conjunction with Local No. 103's representatives, and Martin T. Joyce, Secretary-Treasurer of the State branch of the A. F. of L. I feel, from the arguments presented in opposition to the bill, as well as the briefs filed against it, that the committee will not report the bill out.

I have also gave a great deal of attention to the Lynn General Electric Plant. Work is now picking up in this plant and I feel that our organization will move forward accordingly in that city.

This is about all of my actions for the month, outside of the regular routine work. With best wishes, I remain,

Fraternally yours,

G. M. Bugnizet,

Vice President.

To the Members of Our Brotherhood,
Greeting:

It is with extreme pleasure that I, at this time, can inform our Brotherhood that our fight in the city of Portland, Ore., which, for the past nine months, has been the seat of one of the most severe battles of the Secession controversy, is at an end, and that the two Inside Locals which have been in existence for the past nine months are now a thing of the past, and there reigns in their stead only one Inside Wiremen's Local, known from now on as Local Union No. 48.

It certainly seems a deplorable state of affairs that organizations must wage such a terrific warfare amongst themselves, when, if by only a few moments of thought and reflection they can read-

ily see that no battle was ever won by a division of their ranks. If we, in the Labor Movement, expect to secure our just rights, we must realize that this can only be brought about by the concentrating of our efforts into a Phalanx of Unity.

It certainly is a shame to think of the great amount of energy that is thrown to waste fighting amongst ourselves, when, if through solidarity, by using one-half of this energy we can become supreme in the premises.

Our Brothers should take more interest in their organization's work, and should not only see that they, themselves, are active, but that every other member of the organization does his share. Do not think that because you are in possession of a card that, that is all that is necessary, for be it far from the fact; you must do your share. It is certainly to be regretted that because every organization has a few members that are active, and willing workers that the rank and file seem to be willing to let them bear all the burden. This is not the proper spirit to carry, and you must wake up, get into the harness, do your share and you will have no trouble in maintaining your conditions. You always hear the same old song about your contractors. If you will only get in and do your share towards the cause, you will not need to have any fear of your contractors.

I am sorry to be compelled, at this time, to admit that our greatest danger, and most of our troubles, lay within our own ranks, and not from the employer. If you do your duty and hold together in the same manner in which the employers do, you need have no fear, because you will then reign supreme. So let your motto be: "Concentration of Energies" in one great phalanx of unity. One for all and all for one.

Respectfully and fraternally,

L. C. Grasser,

International Vice President.

CONVENTION CALL RAILROAD EMPLOYEES DEPARTMENT OF THE AMERICAN FEDERATION OF LABOR.

All Local Unions whose members are employed on any one railroad system are entitled to join together and send a representative to represent them at this convention.

As this is a very important matter we trust that our Local Unions on each railroad system will arrange for representatives being there. However, those that do not see their way clear to send

a delegate will be represented by the International Representative.

Our Local Unions on each railway system should not hesitate to arrange for the sending of a delegate as the cost for sending delegate will not be a hardship on any one particular Local as all Locals on each system should share the expense thereof equally.

Our International Brotherhood will be represented by our International President who is a member of the Executive Council of the Department.

The I. O. should be notified immediately of the names of all delegates selected and credentials will be forwarded.

The following call has been sent out by the Department:

You are hereby notified that in pursuance to the constitution of the Railroad Employees Department of the A. F. of L., the second biennial convention of this department will be held in the Labor Temple at Kansas City, Mo., beginning at 10 o'clock, Monday morning, April 13th, and will continue in session from day to day, until the business of the convention has been completed.

Representation.

The basis of representation will be one (1) delegate from each craft on each R. R. System. This question we believe should be treated with considerable liberality in view of the fact that there are a number of R. R. Systems embracing two or more railroads, such as the Pennsylvania, Southern, Harriman Lines, Canadian Pacific and many others; we have therefore ruled that delegates will be seated from their respective organizations if elected to represent a railroad, having what would be considered a distinctive management.

Organizations entitled to representation will be confined to such National, International, and Brotherhood organizations affiliated with this department.

The department laws provide that delegates be elected at least (30) days previous to the convention; it is therefore necessary that the delegates be elected on or before March 13th.

It is unnecessary to enumerate the many important subjects that will be considered at the coming convention. We desire to impress upon you in the interest and advancement of the Federated movement that it is absolutely essential that each organization entitled to representation shall send their full quota of delegates, and that each R. R. System throughout the United States and Canada, either federated or otherwise, be represented.

Credentials.

Credentials in duplicate have been furnished to all of the International organizations, the original credential will be given to the delegate-elect and the duplicate forwarded to the Secretary-Treasurer of the Railroad Department at 302 Sawyer Building, St. Louis, Mo., immediately following the election.

The respective International Presidents have issued letters of instruction to their members, outlining the plan of procedure in regard to election of delegates, and also requesting the District Secretaries to notify headquarters of the names and address of delegates so that credentials can be distributed. You are requested to observe the necessity of giving this matter your careful and prompt attention.

The Committee on Credentials will

meet at Hotel Edwards, Twelfth and Center Streets, Kansas City, Mo., three days previous to the opening of the convention and will report immediately upon the opening thereof.

It is understood that the salary and expenses of all delegates will be paid by the district or craft whom they represent on each session.

A. O. Wharton,

President R. E. Department.

Secretary-Treasurer.

JUSTICE WRIGHT ON GRILL

Washington — Charges involving his character as a citizen and as an occupant of the bench have been filed against Justice Wright, of the Supreme Court of the District of Columbia, by Wade H. Cooper, President of large banking institutions in this city. The charges, twenty-four in number, declare Justice Wright guilty of both private and official misconduct, and numerous incidents are alleged where this official is declared to have used his position for private gain. In his letter to President Wilson, Mr. Cooper says: "I am a banker, and, therefore, naturally conservative, and would not make a statement unless I thought the facts would support it. I do not hesitate to say that the conduct of this judge is a disgrace to the judiciary of the nation and he should be promptly impeached." Mr. Cooper insists that the facts he has gathered show Justice Wright has no regard for the dignity of his position; that he accepts favors from attorneys practicing before him; that street railway attorneys have endorsed his notes for several hundred dollars while defending their clients in his Court; that he threatened a certain attorney with grand jury investigations and then permitted his note for \$1,500 to be presented to

this attorney for discount; that he practices law and receives fees in violation of United States statutes; that he sacrificed personal estates because of personal friendships for certain attorneys; that he violated law to appoint personal friends attorneys for bankrupt institutions; that he committed larceny by taking his note for \$1,000 out of the assets of an insolvent company; that he uses his office for personal gain; that he intimidates lawyers practicing before him; that he is a tyrant in the trial of cases before him; that he alters his charges to the jury to prevent reversals by higher Courts; that he contracts bills and refuses to pay them and his creditors are helpless and afraid to sue for fear of being mistreated by him as a judge should they have litigation before him.

Sensational charges are made that Justice Wright used in his office to secure election on boards of directors of banks and other corporations. It is also charged that Justice Wright appoints his personal friends trustees or receivers in practically all cases where such appointments are required, and Mr. Cooper expresses the belief that an investigation will verify persistent rumors that Justice Wright receives a division of the fees

retained by said trustees or receivers. In proof of the charge that Justice Wright uses his office to further personal dislikes, Mr. Cooper says that on one occasion a party who forced the payment of a bill was compelled to do jury duty for several weeks, despite protests that he was in no physical condition. An "equivalent to uttering forged paper" is the term used in describing Justice Wright's method of juggling Court records. Mr. Cooper affirms the repeated statements made by President Gompers and his associates that Justice Wright was prejudiced, and, therefore incompetent, to sit in the contempt cases against Messrs. Gompers, Mitchell and Morrison, when he pronounced jail sentences of twelve months, nine months, and six months, respectively, on these Trade Unionists. Mr. Cooper comments as follows on the incident:

"That the said Wright, as judge, as aforesaid, unlawfully, wrongfully, and corruptly, and grossly abused his discretion in hearing said proceedings, as he was an interested party; that he grossly abused his discretion in pronouncing sentence upon said Gompers, Mitchell and Morrison, as the penalty imposed was grossly excessive, and oppressive, and cruel, and unusual, the issue in the said contempt proceedings finally being not so much over whether the defendants had done anything meriting punishment, but as to whether they should apologize to Judge Wright or not. Because the defendants would not apologize for what they had done Judge Wright adjudged them stubbornly contumacious, and proceeded to impose the above stated cruel and unusual penalty. It is respectfully submitted that the above contempt proceedings were more in the nature of judicial persecution for the sake of private revenge than for the vindication of the authority of the Court; and it is respectfully submitted that such sentences seem so prejudiced and unfair as to bring the Courts into contempt rather than to vindicate or maintain their dignity or authority."

President Wilson referred the charges to Attorney General McReynolds for investigation. That official later forwarded the papers to the Judiciary Committee of the House of Representatives for action. Justice Wright has retained Attorney J. J. Darlington to look after his interests. This attorney represented the Anti-Boycott association in the Gompers-Mitchell-Morrison contempt case, now pending in the United States Supreme Court. When this case was remanded to Justice Wright's court by the United States' Supreme Court, Justice Wright appointed Attorney Darlington on a commission to hear evidence and report to

him, as "friends of the court," whether Messrs. Gompers, Mitchell and Morrison had violated his orders. The Unionists were found guilty.

AN UNFAIR DECISION.

The following appeared in the New York Law Journal February 21, 1914, and is reprinted for the information of our members:

(Combination in Restraint of Trade—Trade Unions—Sherman Anti-Trust Act—New York Statutes.)—In *Irving v. Neal*, in the U. S. District Court, S. D., New York (November, 1913, 209 Fed., 471), it was held that a combination between Local Unions of Organizations of Carpenters and Joiners, by which their members are pledged to refuse to work on any job where trim or finish made in a non-union shop is used, is in restraint of trade and commerce, and, if it affects interstate commerce, is in violation of Anti-Trust Act, July 2, 1890, ch. 647, 26 Stat., 209 (U. S. Comp. St., 1901, p. 3200); and it is immaterial that the combination is not directed against any particular concern or dictated by any malicious motive.

It was also laid down that, under said Anti-Trust Act, injunction relief can be given only at the suit of the Federal Government, and that such relief could be granted against a combination in restraint of competition in trade under Section 340 of the General Business Law of New York (Consol. Laws, N. Y., 1909, ch. 20) only at the suit of the State. It was further held, however, that under Penal Law, N. Y. (Consol. Laws N. Y., 1909, ch. 40), Section 580, subdivision 6, which makes it a misdemeanor for two or more persons to combine to commit any act injurious to trade or commerce but makes no provision for civil remedies, any appropriate remedy is available to one specially and directly injured by its violation who may, where the combination affects his business, obtain relief by injunction.

It was furthermore determined that a member and officer of a labor organization who joins with others in the adoption of a rule or regulation which is made a part of the organic law of the organization and binding on all its members under penalty of a fine, if such rule or regulation is unlawful as in restraint of trade, is liable for anything done to carry it out, although he does not personally participate therein. The opinion concludes:

"Finally, there remains to inquire whether the decision in the National Fireproofing case (169 Fed., 259) will

prevent the complainants from recovering. In that case the Circuit Court of Appeals held that the combination complained of was not a violation, either of the Sherman Law or of the General Business Law of this State, and then went on to consider whether it was conspiracy at common law maliciously to injure the complainant which would give it a right of action. The particular provision attacked was the agreement between the Master Builders and the Bricklayers' Union, forbidding the subletting of fireproofing. The Court held that this provision, being for the benefit of the bricklayers, and not being maliciously aimed at the complainant, it had no right to recover. Indeed, the complainant was not directly, but only incidentally, injured. If its charter had authorized it to contract for the erection of buildings, it would have been under no disadvantage whatever. The New York market was closed to it because it could contract only for the erection of fireproofing, a separate contract for which was forbidden by the agreement. Therefore it was held that, the object of the agreement being lawful and the means taken to enforce it lawful, the complainant, although injured, had no cause of action. For the same reasons the Court held that the combination did not violate the Penal Code (Sec. 168, Subdiv. 6), which is the same as the section of the Penal Law now under consideration. I think the difference between that case and this clear. In this there is a combination to do an act made unlawful by statute and punishable as a misdemeanor which has, at least in certain instances been enforced against the complainants by unlawful means.

The decision of the Court of Appeals in *Kellogg v. Sowerby* (190 N. Y., 370 83 N. E., 47) does cause doubt. It was a civil action for damages, the plaintiffs charging the defendants with combining to prevent them from using their elevator or competing in the business of elevating grain. The Court of Appeals held that, although the agreement was a conspiracy in violation of the statute, the defendants should have been allowed to show at the trial that when they entered into the combination they supposed the plaintiffs were also going to enter into it, because this would prove that they did not, by the combination, intend to injure the plaintiffs, in which case the plaintiffs could not recover.

This seems to be treating a conspiracy in violation of statute as if it were a combination at common law to restrain trade or prevent competition without malice to the plaintiffs. Of such a combination, although not valid nor enforce-

ible between the parties, no third party could complain at common law, unless it was made maliciously to injure him (*Mogul SS. Co. v. McGregor*, 1892, App. Cas., 25). But, under the statute in question, the offense is a misdemeanor and it makes no difference what the intention of the parties to the agreement was, and so the Court said in the *Kellogg* case:

"The error committed in the exclusion of this evidence requires a reversal of the judgment. In order to guard against any possible misapprehension, however, on another trial, it is proper to say that we do not think that good motives on the part of those who enter into a combination in restraint of trade save it from the condemnation of the law of this State (*People v. Sheldon*, supra, 139 N. Y., 251, 34 N. E., 785, 23 L. R. A., 221, 36 Am. St. Rep., 690). The fact that the parties to an agreement of such a character may have honestly believed that it would be beneficial instead of injurious to commence does not render it legal. The law denounces it if it is designed to prevent competition and will have that effect whatever the intent of the parties. Where, on the other hand, the parties act in the honest belief that a third party is to join in the agreement, that fact tends to disprove any intent to injure him, whatever may be said of the agreement as to others."

Furthermore, I cannot see why the conspirators should have been excused because they did not learn until after they had entered into the unlawful agreement that the plaintiffs would not join it. The conspiracy was a continuing one reaffirmed de die de diem, and it would seem that the defendants should be held liable if the plaintiffs were directly injured because they continued an unlawful conspiracy after they did know the plaintiffs would not become parties to it.

While there is no evidence of a special hostility to the complainants in particular as maintaining an open shop, the proofs show a persistent campaign has been made by the combination to compel them to unionize their shop. They suffer in a way different from the community at large. This entitles them to all available civil remedies, among others to injunctive relief. A decree will be entered granting a permanent injunction in accordance with this opinion."
